WHAT COULD ONE HUMAN DO IF THEY UNLOCKED 100 PERCENT OF THEIR BRAIN CAPACITY AND ACCESSED THE FURTHEST REACHES OF THEIR MIND

Lucy (Scarlett Johansson) is tricked by her boyfriend into delivering a briefcase where she is grabbed and held hostage by the merciless Mr. Jang (Choi Min Si). His thugs surgically implant a package loaded with a powerful synthetic substance in her to smuggle it across the border. The package leaks and she develops superhuman traits. Lucy enlists the help of Professor Samuel Norman (Morgan Freeman), whose decades of research on the brain's potential makes him unparalleled in the field and the only person with the ability to see where this might lead. Relentlessly pursued by her former captors Lucy begins to turn the tables and transform into a warrior evolved beyond human logic.
